- RECENT PAPERS BEARING ON METEOROLOGY AND SEISMOLOGY.** H. H. KIMBALL, Librarian.
- The subjoined titles have been selected from the contents of the periodicals and serials recently received in the Library of the Weather Bureau. The titles selected are of papers or other communications bearing on meteorology or cognate branches of science. This is not a complete index of the meteorological contents of all the journals from which it has been compiled; it shows only the articles that appear to the compiler likely to be of particular interest in connection with the work of the Weather Bureau. Unsigned articles are indicated by a —
- Aeronautics.** New York. v. 2. May, 1908.
